Projektträger

BIOMULCH IS A PROJECT FUNDED BY THE EUROPEAN COMMISSION. THIS PROJECT HAS RECEIVED FUNDING FROM THE EUROPEAN UNION'S HORIZON 2020 RESEARCH AND INNOVATION PROGRAM UNDER GRANT AGREEMENT N° 737741

Laufzeit Dezember 2016 – November 2018

Fördergeldgeber European Commission

Zusammenfassung BIOMULCH will be a biobased mulch with controlled biodegradation (independent from temperature, humidity and soil conditions), being cost-competitive and covering the current agricultural market needs. BIOMULCH will be commercialized as a kit and guarantee the farmers the complete mulch film biodegradation when is exactly required by them. The mulch film will be fully degraded in a 30–40 days period with our innovative mulching technique.
