Willich, March 2017 – Effective January 1, 2017, bioplastics' specialist FKUR (www.fkur.com) has expanded its management and has appointed Daniel Peltzer Chief Financial Officer (CFO). He is the third managing director of the company, alongside Dr. Edmund Dolfen (CEO, Chief Executive Officer) and Carmen Michels (COO, Chief Operating Officer).

Peltzer is a skilled office administrator and state-certified business economist. In 2008 he moved from a well-known bank in Mönchengladbach to the financial accounting department of FKUR Kunststoff GmbH. There, his duties have grown steadily with the growth of the company's business activities.

Dr. Edmund Dolfen said: "With Mr. Peltzer, we have expanded our management team with an experienced professional who will perform his function as a CFO who has responsibility for the management of the financial system in our company, in an excellent manner. We are

PRESS RELEASE

ideally positioned to meet the high demands of the FKuR Group as a leading supplier of bio-plastics and compound specialties.“

Bioplastics:

Bioplastics are a unique class of materials which are based on renewable resources and/or enable the biodegradation of products made from these polymers.

About the FKuR group:

The FKuR Group is a medium-sized, privately-owned company group focusing on the development, production and distribution of high-quality specialty compounds and the distribution of specialty plastics.

Embedded in the company group are FKuR Kunststoff GmbH, one of the leading producers of bioplastics compounds for flexible packaging solutions and technical applications, as well as FKuR Polymers GmbH, which specializes in the development and production of TPE and PP / PE compounds.

The product portfolio of the FKuR Group comprises the product groups of FKuR Kunststoff GmbH "Bio-Flex®", "Biograde®", "Fibrolon®", "Terralene®", "Terraprene®" as well as the brands Macroprene®, Macolen® PE and Macolen® PP of the FKuR polymer.

The distribution business includes the biobased PE "I'm green™" from Braskem, the biobased PET "Eastlon" from the Fenc Group, as well as the biobased PA "VESTAMID® Terra" from Evonik.
